# What's on @ TOPS

Week 7 Term 2

W / E — 10TH JUNE

Welcome to winter. It is finally up on us and we have certainly been testing out the heaters on a few of the colder mornings. It is lovely to see the students wearing their school jumpers and looking like a team!

Students once again have their new learning goals in place and on display in the classroom. It helps your child to achieve their goals if you are discussing them at home as well. Homework time is a great opportunity for students to explain how they are going towards achieving these goals.

A very big thank you to John Illies and the National Parks and Wildlife Service (Dept of Environment) for giving us a guided tour of some of the local gold sites of significant importance to our local history. We believe it is important for our students to understand our local history so as to be minders of this knowledge for future generations.

This week I participated in training that will provide me with the necessary skills to further support my students, staff and colleagues. I also used the opportunity to learn more about helping students to recognise their writing strengths.

Susan Shiner (Relieving Principal)

### LEARNING GOALS

Using some tools I learnt about while away this week students will be able to identify where they are on the literacy continuums and this will help them to set appropriate learning goals.

### YEAR 6 FUNDRAISING

The year 6 students will be continuing their fundraising efforts by running a chocolate wheel at the 2 storey this Friday night and the Family Hotel next Friday night. Keep an eye out for them in their new year 6 shirts!

### P&C MEETING

The next meeting of the P&C will be Wednesday 15th June. I look forward to having the opportunity to share with you the progress of the school.

### REPORT MEETINGS

On Monday of week 10 we will begin report meetings. We hope to complete most meetings on the Monday to fit in with our NAIDOC Camp.

### NAIDOC EXCURSION—HELP

We are looking to borrow 1 family sized tent for 2 nights if anyone has one they would be prepared to lend us we would be most appreciative.
